

Project Initialization and Planning Phase

Date	30 September 2026
Team ID	SWTID-2026-9986
Project Name	Student Enrollment & Course Management System (SECMS)
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

I am...	I'm trying to...	But...	Because...	Which makes me feel...
Applicant: Seeking a loan	Secure a loan for property	Married with no co-applicant income.	Self-employed with a good credit history.	Optimistic about loan approval.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Enrollment Officer	Manage student enrollments efficiently	Enrollment data is scattered	Systems are manual and unintegrated	Frustrated and error-prone

PS-2					
Administrator	Track enrollments and revenue	Reporting is delayed	Data is not centralized	Uncertain in decision-making	

Project-Specific Problem Statement:

I am an Enrollment Officer / Administrator at an educational institute, trying to manage student admissions, course registrations, instructor assignments, and approvals efficiently, but the data is scattered across multiple spreadsheets, emails, and systems, which makes the process manual, time-consuming, and error-prone. This makes me feel frustrated and uncertain about accurate reporting, revenue tracking, and real-time visibility.
