Project Name	AI-ML & GEN AI – Stüdy Assistant (Smart Study Companion)
Maximum Marks	5 Marks

Product Backlog

A prioritized list of features and functionalities for the AI-ML & GEN AI Study Assistant, aimed at helping students with personalized learning support, doubt resolution, and exam preparation.

Sprint Schedule

We will use 2-week sprints to deliver the features in phases. Each sprint will include planning, development, testing and review.

Sprint Schedule Details:

- **Sprint Duration:** 2 weeks each
- **Total Sprints:** 5
- **Methodology:** Agile (Scrum)
- **Tools:** GitHub (code), Jira (tracking), VS Code (development)

Examination Details

The project will be evaluated based on the final working prototype, code quality, documentation, presentation and demonstration. Each phase/sprint will also be reviewed for progress.

Project Plan Summary

- Build a user-friendly web application using React (frontend) and FastAPI (backend).
- Integrate AI/ML models for personalized recommendations and doubt resolution.
- Use a database (MongoDB) to store user data, study materials and chat history.
- Deploy the application and test all features for smooth performance.
